Dear Harold,

I saw a copy of the Kennedy autopsy authorization in CD 362 in June 1966. CD 362, from "AG Texas," is described as "3 envelopes." Part (c)2 is "Autopsy report on President John F. Kennedy (pages 419-425)." (From the page numbers in the listing of this CD, I gather that this item is some sort of supplement to CE 2003, the DPD file.) According to my notes, "p. 425 is authorization for autopsy, signed (sic) Mrs. JFK, witnessed by Bobby, approved R.O. Canada, Capt., USMC, 11/22."

It might be useful to ask for part (c)2 of CD 362, without indicating that the exact contents are known, to see whether this has been reclassified since I saw it.
